The 2-8 Pillar Work and Template Sciences Course

The idea is to continue the work that was instigated with the Restoration Program (the ATE Pillar Project) and the attempt to repair the original lineages of our reality. Of course, reality has changed since then (and the mission as such failed) and lots have been done to our template under the forces having their projects here, but to be able to reconstruct our template, using whatever viable genetics we have got left, we need the to understand the original construction first, why it was made and what its purpose was.

The HAL Free Online Courses and the Advanced Clearing Work Courses must have been completed, since they provide the background for this course. The course also builds upon earlier material, although taking it to the next level.

The DE1-LPRF1 Reality Fields – the Foundation of the Artificial Energy Systems – Now Resetting

Our reality is surrounded by concentric circles of distorted energy. And then we have our outer world as well. From the earlier HAL material:

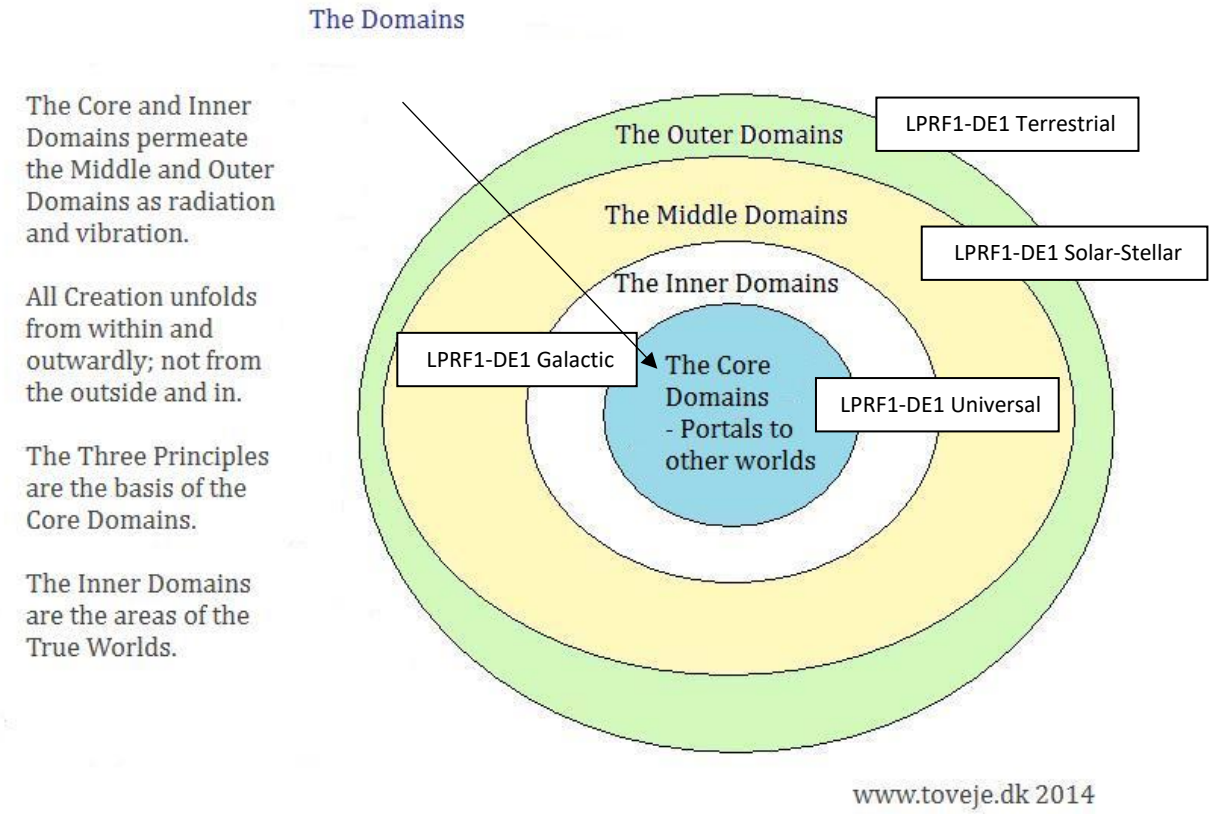

The gridworks and networks in the new reality fields after the Resetting of our entire system is completed. Of our interest are human groups 1-3.

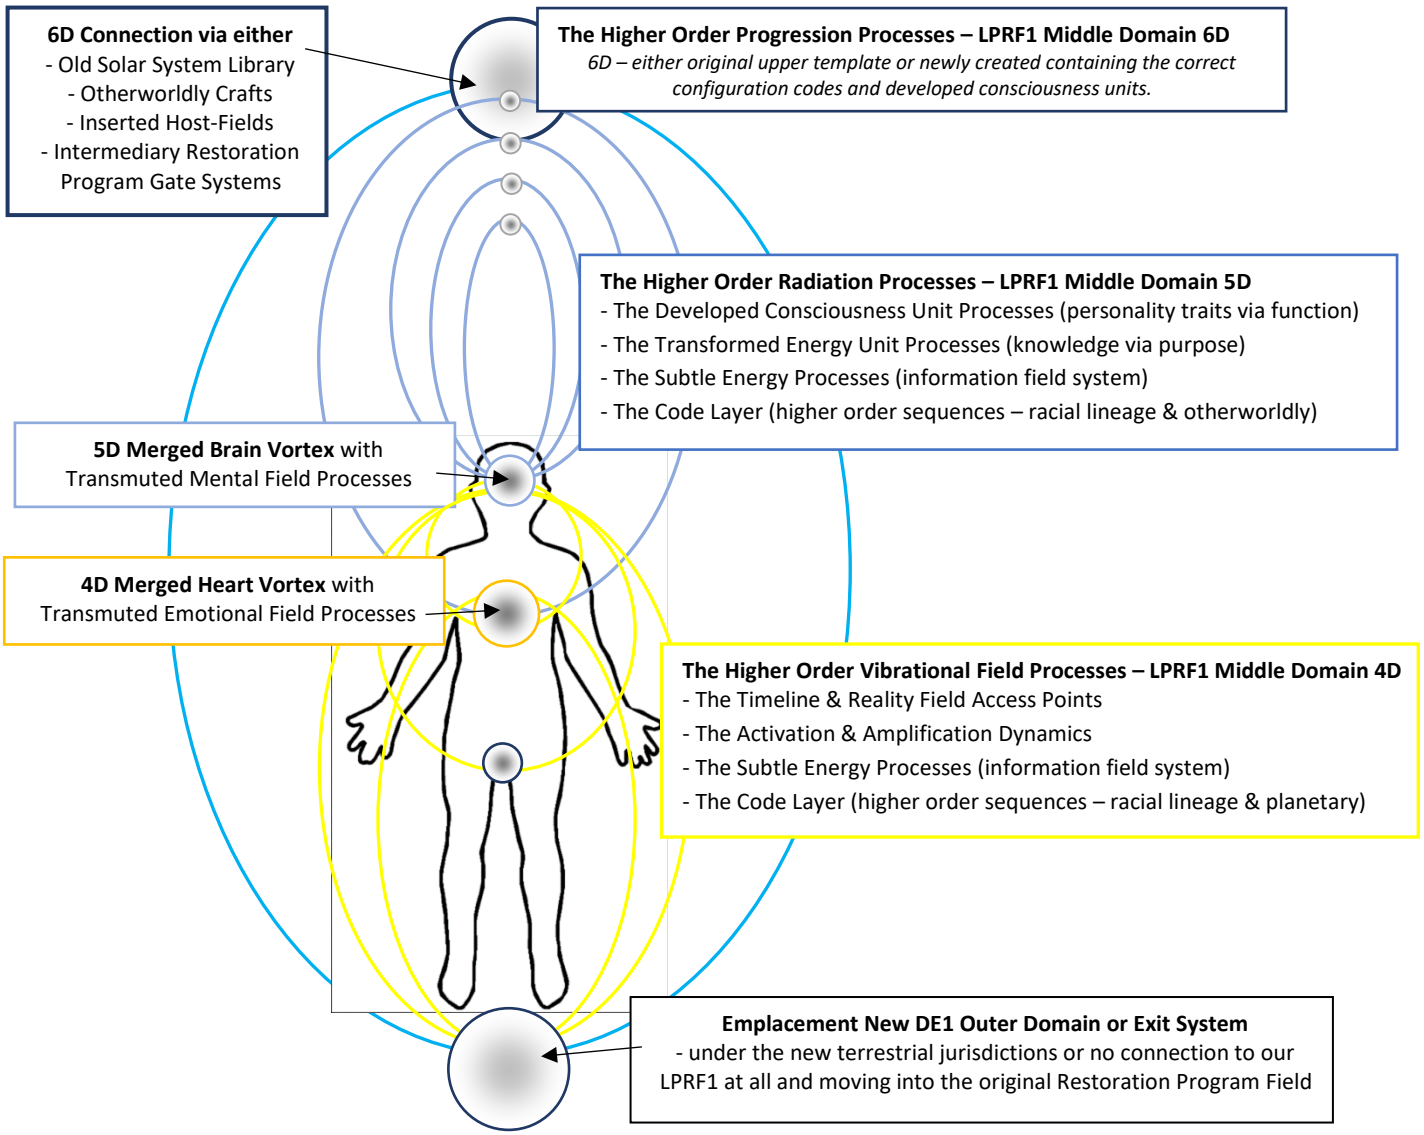

The illustration shows how gridworks turn into networks. A gridwork is the central racial field of a LPRF holding the encoded energy units as well as the plan for that reality field as it was laid into the gridworks by the Progenitors. Only when the genetics link up to a gridwork are they able to progress.

The concentric domains as they unfold into our reality in density settings, where each domain covers several sub-fields, as explained in the HAL Books.

The Higher Order Transformative Energy System in the LPRF1-DE1-OD

The higher order energy system can be viewed as multilayered composition of several energy fields with different access points, energetic orientation and processes of consciousness and energy. It expands from the personal experiences into the reality fields of similar forms of energy fields and consciousenss processes.

The higher order energy system is thus a composition of the processes of raw consciousness and energy units to be developed and already transformed consciousness units (the CUs) and energy units. The goal of these processes is to develop new forms of existence.

The Merged Lower Order Brain & Higher Order Radiation Processes
Transmuted Neuro-Electric Processes (biological and otherworldly) into expressing the functional CUs adapted to ego structure.
Transmuted Neuro-Chemical Processes (biological and otherworldly) into expressing the lower and higher order knowledge.
Transmuted Subtle Energy Processes (biological and otherworldly) into expressing the dual information systems.
Transmuted Code Layer (lower order planetary and higher order otherworldly) into expressing the dual code layer systems.

The Merged Lower Order Emotional & Higher Order Vibration Processes
Transmuted Electro-Chemical Processes (biological and otherworldly) into incorporating timeline & reality field dynamics.
Transmuted Nervous System Sensations (biological and otherworldly) into incorporating activation & amplification dynamics.
Transmuted Subtle Energy Processes (biological and otherworldly) into expressing the dual information systems.
Transmuted Code Layer (lower order planetary and higher order otherworldly) into expressing the dual code layer systems.

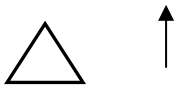

The Individual Challenges in the Work

The individual challenges involve the work with the lower order fields and how we can clear these to get to the point, where we can rebuild our higher order constitution. As long as we are trotting along in our human form, exercising our human will, mind and emotions, we will not get to the higher order levels in us. The higher order levels of us contain the consciousness genetics, the original template and higher order energy system. These parts have been hidden from us. We are to figure out how to reconnect to the true parts of us and then put in the needed work to activate them.

To get to where we can recreate all that we are, we must solve the puzzle of the in-the-way lower order fields, i.e., the electromagnetic controlled overlay of the bio-field and DNA, along with the emotional field and mental field that hold programming to fit us into the base program (aka the ISP). The lower order fields are inserted to block the higher order energy system from connecting to our organic bio-field and allow our own code systems to unfold, leading us back to the density energies we also are able to process and integrate.

The higher order energy systems and the organic vessel with its three lower fields:

Higher Order Energy System – the True Human; Progressive
Consciousness units
Code sheets, configuration and template
6D Energy system fitting the original solar system

Lower Order Fields – the False Human; Regressive
Mind-field to be altered into the 5th cycle brain field
Emotional field to be altered into the 4th cycle heart field
Bio-frequency field to be altered into the 4-5th cycle bio-density field

Organic form – Molecular
Bio-frequency matter is to be cleared and transformed by our activation of the higher order energy system, and then returned into density units, so far as it is possible, following the original DE1 OD settings.

What humans hold of inserted alien technology and their subsequent alien DNA (altered extra-terrestrial genetics altered into being able to latch on to the human DNA) will be shown in the bio-energetic clearing processes and get control of the unconscious electrochemical processes in organs, glands and cells. It will also be shown in the visions, or memories of past lives, defining the current emotional field and its content.

Therefore….

1) The main goal of this work is to clear the regressed LPRF2 and infected LPRF3 inserted genetics, technologies and distortion fields from the three lower energy fields…
2) To get there all groups must work with the psychic-energetic transformation processes of the three lower fields in the lower order energy system….clones hold these as well.
3) Everything is interconnected….from the reality field energies to the energies of our higher and lower energy systems, and into the smallest unit found in the cellular construction.
4) When one layer is worked with, the other intersecting energy fields are also worked with.

What are the Template Sciences?

- They are the sciences behind the construction of the template. This specific type of construction was developed in the Pillar Project to accommodate for a higher order energy system suitable for the developmental programs unfolded within the Pillar Project. The template is thus unique for our solar system.
- They cover the methodology to work with the template according to the developmental programs of the Pillar Project, and thus go hand in hand with the 6 Pillars of Knowledge.
- The Principles of Progression, the Rules of Engagement and the Energetic Laws are foundational for the construction of the template. Upholding these ensures a functional template, that is generates new energy units. If these were not followed, the template would eventually be removed from the Library due to the dynamics of segregation (as explained in *the HAL Philosophy book*).
- The state of the template determines the progression dynamics and ability to work with the chiasm and timelines via the high order developmental sciences.
- ATE, the template was reengineered to alter the effects of the timeline event, to clear the ATE genetics & timelines, and to determine the continuation of the races as either failed or as a success.

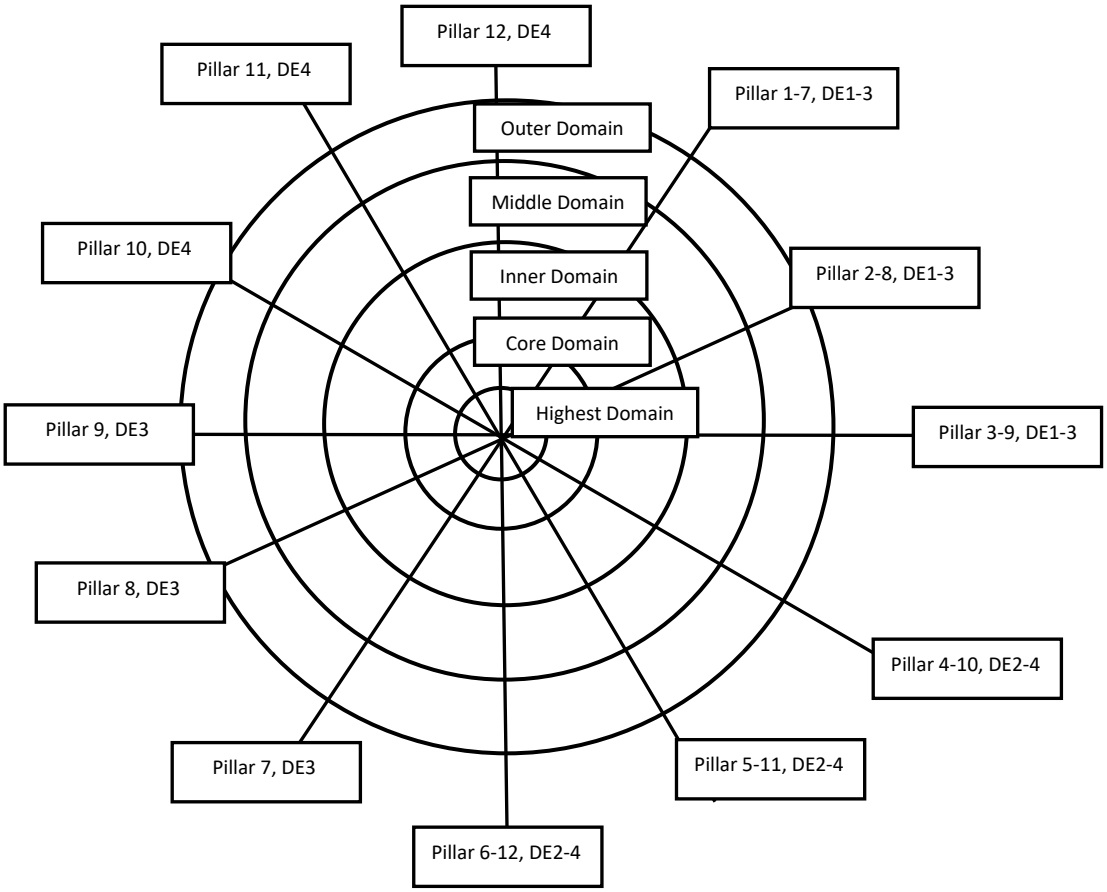

The Higher Order Information Systems as Developmental Processes

As we recall from the HAL Transition Science Material: In the work with the energetic-dynamic cycles of the concepts of spheres within spheres and probability fields we work with different dynamics that stem from outer and inner very subtle energetic influences. Via the energetic-dynamic work with the different spheres and fields, and their complex information systems, we expand our perception sphere of knowledge using these energetic dynamics. We recall the psychic-energetic sensing and higher order cognitive abilities as a 6-step ladder of perception dynamics to unravel the complex information system we are addressing:

- Linear psychic-energetic sensing and higher order cognitive dynamics investigating the item from the perception process of sequences of units (Step 1 of the perception dynamics).
- Processual psychic-energetic sensing and higher order cognitive dynamics investigating the item from the perception process of opposition dynamics (Step 2 of the perception dynamics).
- Systemic psychic-energetic sensing and higher order cognitive processes investigating the item from the perception process of synergetic dynamics (Step 3 of the perception dynamics).
- Information system psychic-energetic sensing and higher order cognitive processes investigating the item from the perception process of holographic dynamics (Step 4 of the perception dynamics).
- Coding and decoding psychic-energetic sensing and higher order cognitive processes investigating the item through perception processes of complex code information systems (Step 5 of the perception dynamics).
- Integrative psychic-energetic sensing and higher order cognitive processes investigating the item via replication dynamics (Step 6 of the perception dynamics).

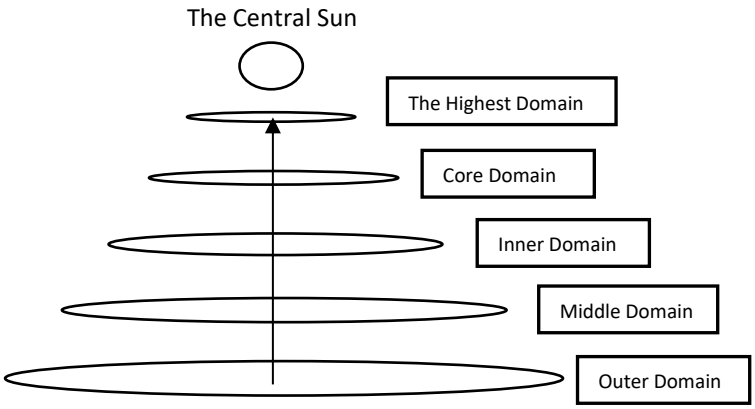

The Natural Laws administer the accurate use of the diverse forms of energy a world is composed of. This includes the Rules of Engagement to ensure the appropriate energetic exchange in all interaction in any inter-racial behavior, since every and all interactions are an exchange of information, energy and consciousness and thus a utilization of reality energy or human energy. How to do this in the accurate ways were merged into all progressive developmental programs.

The different universal lineages and the pillars are positioned in the domains on density 1-5, within 12 dimensions in a ring set up, i.e. *the rings of progression*.

The pillars unfold within each domain, where different aspects of the template, energy system and organic vessel are developed. All within the respective reality fields, using the dimensional energies. Density 5 and dimensions 13-15 are not for all.

The Progression Spiral is composed of the domains, which constitute the rings of progression

The Original Pillar Project Developmental Programs
In the old progression worlds, there were no teachers of progression, since every human could - at all times - connect to the holographic teaching systems (the HTS) and there get the results of any choice to be made according to the Principles, the Rules and the Laws of that system, i.e., how the reality energies would work on the template in that type of density and reality, if we made that choice.

The HTS were interactive and simulated possible scenarios according to the template, we had constructed and what we had decided to achieve in the system, we were part of. Furthermore, the HTS interacted with the chiasm, showing possible outcomes on all holographic levels of the reality field.

If the possible futures were not suitable for our continued progression, we would change our ways or recode our code sequences to fit the system, we were part of in a better way. We utilized our consciousness to do so, since we were the ones that had engineered our template and energy system, when we entered that system. Thus, if our template did not work, it was our responsibility to fix it.

Consequently, we are the only ones knowing how our template works and how it is engineered in detail. This is important to understand, because the underlying coding in everything we are, is something we have engineered. We learned that in the first two pillars. We are sovereign in all that we are and we do not need teachers to make us become whole again. But we need other lifeforms and surroundings to mirror to us what we are, so we can self-correct and self-adjust. And, as things are now, humans that resonate with us on the same level of work.

The Activation and Cleanup Stages
The 2-8 Pillar
2026-2028: The Genetic Level of the Root Races – the Next 3 Years, Top Level, i.e. DE3, D9-7
2029-2031: The Genetic Level of the Lineages **– Middle Level, i.e. DE2, D6-4**
2032-2034: The Genetic Level of the Human Projects **– Lowest Level, i.e. DE1, D3-1**

The 1-7 Pillar
2035-2037: The Radiation Fields in Humans **– Top Level, i.e. DE3, D9-7**
2038-2040: The Vibration Fields in Humans **– Middle Level, i.e. DE2, D6-4**
2041-2043: The Bio-Organic Fields in Humans **– Lowest Level, i.e. DE1, D3-1**

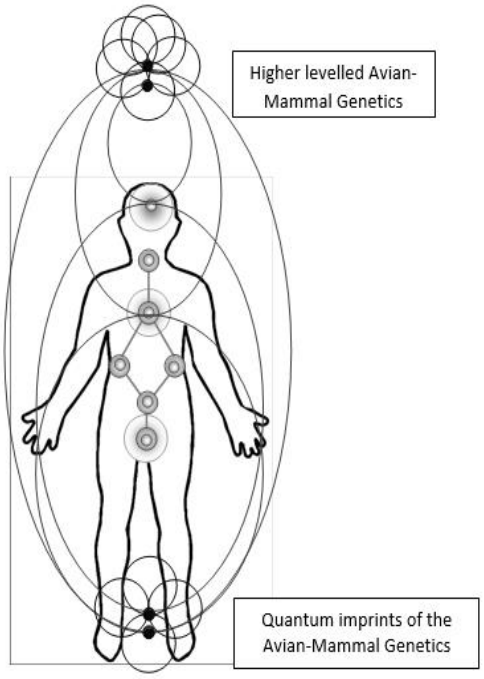

The Higher Order Information Systems as Developmental Processes
In the work with the energetic-dynamic cycles of the concepts of spheres within spheres and probability fields we work with different perception dynamics such as the psychic-energetic sensing and higher order cognitive abilities. We recall the 6-step ladder of perception dynamics to unravel the complex information system we are addressing:

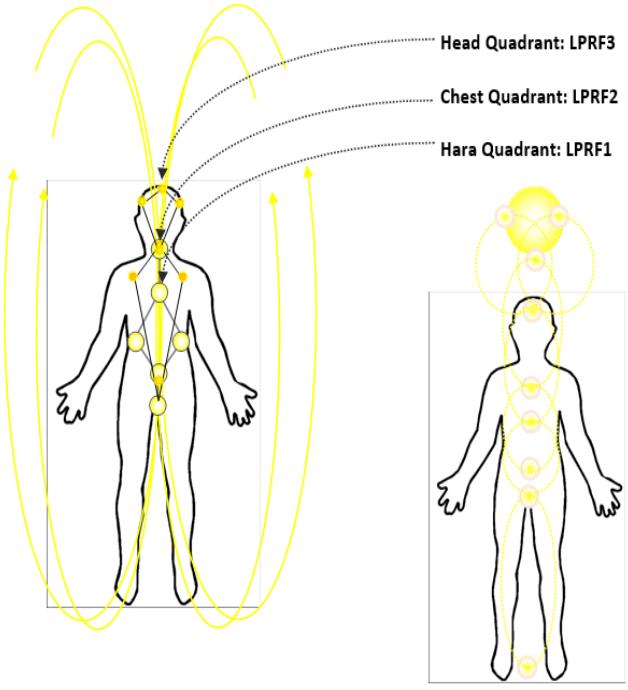

- Linear psychic-energetic sensing and higher-order cognitive dynamics investigating the item from the perception process of sequences of units (Step 1 of the perception dynamics).
- Processual psychic-energetic sensing and higher-order cognitive dynamics investigating the item from the perception process of opposition dynamics (Step 2 of the perception dynamics).
- Systemic psychic-energetic sensing and higher-order cognitive processes investigating the item from the perception process of synergetic dynamics (Step 3 of the perception dynamics).
- Information system psychic-energetic sensing and higher-order cognitive processes investigating the item from the perception process of holographic dynamics (Step 4 of the perception dynamics).

- Coding and decoding psychic-energetic sensing and higher-order cognitive processes investigating the item through perception processes of complex code information systems (Step 5 of the perception dynamics).
- Integrative psychic-energetic sensing and higher-order cognitive processes investigating the item via replication dynamics (Step 6 of the perception dynamics).

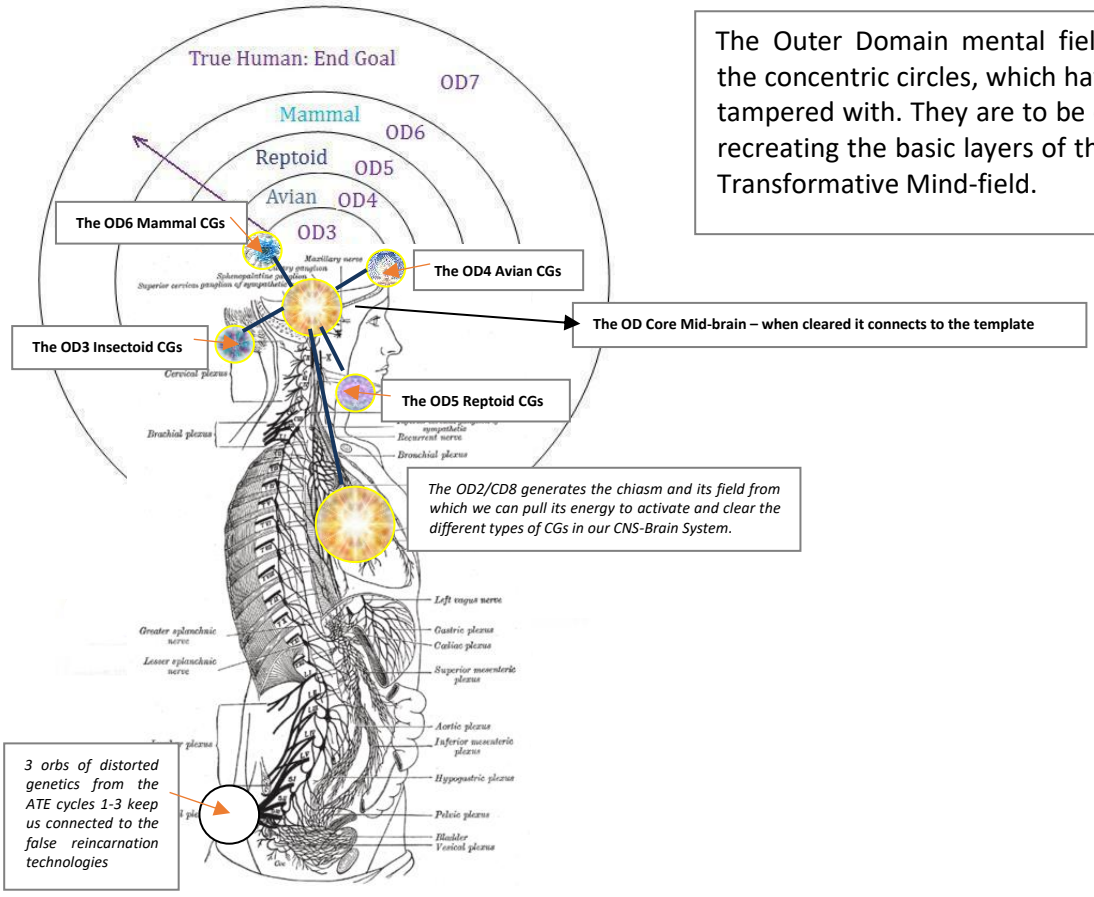

This Means in Energy Work

The Activated Vibration Auric Fields

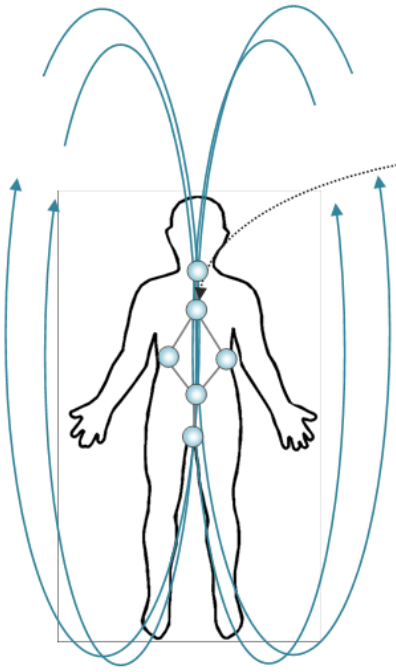

The CNS-Brain Holographic Overlay System with the inserted regressed genetics and the artificial timelines

The Outer Domain mental field holds the concentric circles, which have been tampered with. They are to be cleared, recreating the basic layers of the Sirian Transformative Mind-field.

The Mental HQ

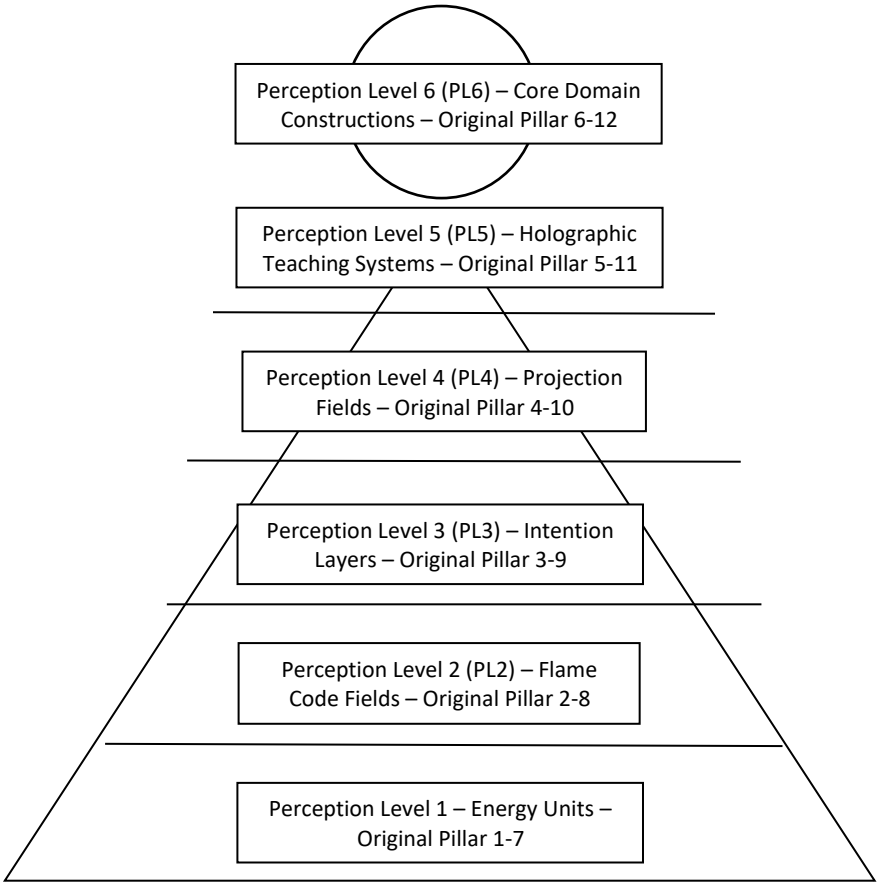

The Head Quadrant is to be cleared of inserted regressed genetics & then evaporated,
The Chest Quadrant is to be cleared of inserted regressed genetics & then evaporated
The Hara Quadrant is to be cleared of inserted regressed genetics & then evaporated

Hara Quadrant of mental energy

Use the method shown in the *Energy Work Courses* where I work with the core flows using the four world corners to produce higher leveled fields of energy.

The seals are made of combined astral and mental energies. The connecting lines and the construction of the seals are astral. The imprinted locks in the core of the seals are made of mental light coding, and when you get your throat chakra up and running along with the mental HQ, you will be able to access the core of the seals and in this read the information on how to unlock the seals. Mental light coding is to be seen as a

The Perception Levels

PL1: The 1-7 Pillar Work - The Law of the One from 2036 to 2045

Main Working Area
The Form – Individual Level

The Dynamics
The Radiation Field
The Vibration Field
The Organic Bio-Field

The Guidelines
The Principles of Progression

The Interacting Mechanics
The interplay between Self – Others – Reality
by the use of the Principles, Radiation, Vibration and Bio Fields.

Perception Level 1 – Energy Units – Original Pillar 1-7

Principle 1 – Rule 1 – Law 1
1. Only Behave, as We Want Others to Behave.
1. Correct Self-Mastery.
1. The Law of Energetic Influence.

Some of the skills we learned in the 1-7 pillar were template reconstruction, how to upgrade the code sheets and how to program and repair our template. Along with the capacities of how to work with our energy system.

The 2-8 Pillar Work - The First of Many for the Highest Good of the Many – From 2026 to 2035

Main Working Area
The Energy System – Racial Level

Perception Level 2 (PL2) – Flame Code Field – Original Pillar 2-8

The Dynamics
The Root Races
The Lineages
The Human Projects

Principle 2 – Rule 2 – Law 2
2. Respond with Balance and Equal Energy and Consciousness.
2. Correct Self-Responsibility.
2. The Law of Proximity & Counterbalance.

The Guidelines
The Rules of Engagement

The Interacting Mechanics
The interplay between Local – Global – Systemic
by the use of the Rules, Lineage, Root race and the Project, we are in.

In pillar 2-8 we learned how to develop the racial genetics of our lineage, being a natural part of our template, so our alterations would be for the highest good of the many, i.e. for our race, or the race, we had chosen to be part of. In our individual progression work, we knew we affected the racial consciousness units and thus, we always developed our genetics in unity with the dynamics of interconnectedness, following *the Law of **the** One*, which means that if one can do it others can too, because everything we do gets implemented into the racial genetics. We also learned how to apply our knowledge and skills to accommodate for the highest progression rate of the system, we were part of. Meaning, that the main goal of our individual and collective progression work was to achieve what was for the highest good of the system, we were part of and at the same time accomplish what were looked-for to achieve our personal highest purity rate, highest standards and progression rate.

PL3: The 3-9 Pillar Work - The Law of Genetic and Energetic Affinity

Main Working Area
The Template – Reality Level

Perception Level 3 (PL3) – Intention Layer – Original Pillar 3-9

The Dynamics
The Holographic Grids
The Collective Networks – Root Races
The Racial Grids

Principle 3 – Rule 3 – Law 3
3. Focus on What We Want to Amplify.
3. Correct Self-Expression.
3. The Laws of Creational Projection and Amplification.

The Guidelines
The Natural Laws of Energetic Utilization

The Interacting Mechanics
The interplay between Transformation – Transition – Transcendence
by the use of the Laws, the Networks and the Racial Grids.

In pillar 3-9, we learned how to apply the Natural Laws of Energetic Utilization into our progression work.

After completing the 2-8 programs and their cross-programs into the community work, the next stages of the progression work were exclusively within the 3-9 pillar, where the main focus was on how to manage the governance programs administering our reality field, how to adjust the grids and how to maintain the resonance fields.

The inter-racial communication and interaction programs from the 2-8 pillar work[1] were combined with the 3-9 pillar developmental work *with the detailed use of reality energy and human energy*, given that both centered around how to progress as part of a community, or within a group of humans, and how to perform creational projects that supported the furtherment of that group within a segment of reality.

PL4: The 4-10 Pillar Work - The Law of Reciprocity

Main Working Area
The Chiasm – Systemic Level

The Dynamics
The Word
The Vow
The Will

The Guidelines
The Ruling Factors of the Cycles

The Interacting Mechanics
The interplay between Evolving – Developing – Progressing
by the use of the Cycles, the Word, the Vow and our Will.

Perception Level 4 (PL4) – Projection Fields – Original Pillar 4-10

Principle 4 – Rule 4 – Law 4
4. The Outcomes Correspond to What We Are.
4. Correct Self-Containment.
4. The Laws of Feedback and Reciprocity.

PL5: The 5-11 Pillar Work - The Laws of the Higher Order Sciences

Main Working Area
The Timelines – Technological Level

The Dynamics
Consciousness Units (Genetics)
Code Sheets
Program Building

The Guidelines
The Ruling Factors of the Construction

The Interacting Mechanics
The interplay between Coding – Programs – Construction
by the use of the Template, Code Sheets and Consciousness Units.

Perception Level 5 (PL5) – Holographic Teaching Systems – Original Pillar 5-11

Principle 5 – Rule 5 – Law 5
5. Inner Knowledge is the Correct Teacher.
5. Correct Team Awareness.
5. The Law of Higher and Lower Order Sciences.

[1] Each reality field has its own racial differences and thus dissimilar ways of behaving and being around each other. Diplomatic assessment and learning suitable ways of acting, when visiting another world, were part of the 2-8 pillar work.

PL6: The 6-12 Pillar Work - The Laws of Eternal Circulation & Elevation

Main Working Area
The Core Facilities

The Dynamics
The Core Domain Fields
The Councils
The Connection to the Ancient Ones

The Guidelines
The Universal Laws and Racial Guidelines

The Interacting Mechanics
The interplay between Lifeforce – Energy – Consciousness
and the continuation of these into the upcoming evolutionary cycles

Perception Level 6 (PL6) – Core Domain Constructions – Original Pillar 6-12

Principle 6 – Rule 6 – Law 6
6. The Correct Partnerships.
6. Correct Team Responsibility.
6. The Law of the Cycles.

The Foundational Pillar Work

In the foundational pillar work, we learned all the hoped-for skills to exist correctly in the world, we had chosen to be part of. Some of the progression work, we could do on our own and other levels had to be done as part of a group. We could attain the highest purity rate on our own, which was an organic-energetic exercise in the world, we were part of and how to exist in it correctly. However, to achieve the highest standards required surroundings to interact with, such as other lifeforms and how to interact with them appropriately according to the system, we were in.[2] Only then would the vibration field, matching that system, get developed. And naturally, always by conferring to the Rules of Engagement used as a guideline of how to develop the vibration field to reach the most optimal solution, progression or development for all involved.

The highest progression rate, i.e. the work on the radiation field, involved projects based upon progression dynamics and the higher order sciences. Only by developing our surroundings in e.g. creational projects or community work would it be possible to reach the highest progression rate, since the projects we fashioned would show our abilities to work with the first 3 pillars as a progressive individual, as being part of a race and as a citizen in a progressive reality.

Using Self-Scan and Code-Repair in the Work

Step 1: The ability to self-scan and code-repair the energy fields to clear out code systems of a lower order

I. What is perceived from a normal awareness level?
II. What is perceived from a double awareness level?
III. What is the energetic information behind from a higher order awareness level?

Step 2: The ability to achieve energetic transformation in the two energy systems
What do you think it means to achieve energetic transformation of the two energy systems? *Then ponder upon how you can achieve this energetic transformation in your daily energy work using the 6 cyclic energetic-dynamics, the Principles, the Rules and the Natural Laws, and now the Template Sciences.*

[2] All systems have their version of the Principles, Rules and Laws. Thus, the highest purity rate, the highest standards and the highest progression rate differ from system to system. It all depends on the holographic resonance fields and the kind of energy that is the prevailing in that system.

The 12 Principles of Progression

The Principles are the building blocks that enable us to build a higher awareness structure. The Principles, and the way they work individually, are based upon the original skills to be re-developed in the attempt to reboot our energy system, so we yet again can follow the original guidelines of the progressive systems.

1. *Only Behave, as We Want Others to Behave*

   This Principle leads to a higher self-responsibility energetically, mentally, emotionally along with a higher order observance in speech, behavior and emotional response to all which are "put in front of us." We behave, as we want others to behave. We act as the role models for what we want in the world.

   Principle 1 is also called the Law of the One; i.e. if one can do it, others can too. Thus, everything we do allow for others to do it as well. So, we better sharpen up.

2. *Respond with Equal Energy and Consciousness*

   The Principle gives the answer of how to interact with humans, not doing the progression work. We respond to their level of awareness and only give them, what they can hold of energy. If we give them more information and energy than they can hold, the chances are high of activating levels in them, which they are not ready to deal with. And in doing so, the feedback to our energy system will be that we are not ready either to hold that awareness, because we cannot administer it yet.

   The Principle also allows for actions that can be looked-for in our encounters with the other-dimensionals. Moreover, it sets the standard for dealings with humans, used as a tool to harm us.

   However, the use of Principle 2 to defend and to protect is only for activated humans knowing how to work with genetics and energies, aiming at a result for the highest good of the many. The response is not an emission of energy, but the appropriate level of evaporation, and only when we are interfered with.

3. *Only Focus on What We Want to Amplify*

   This Principle is also called *the Law of Participation*. What we focus on, look at, perceive, join, read, watch etc., we connect to energetically and then we participate in the relative reality behind that information. This changes our energetic settings, the code layers and the template, and it allows for a use of our energies to amplify regressed realities and their thought forms within this world. And the progressives, naturally.

   Aside from the effect of our interest on our energy system, we also amplify what we look at. This means, whatever we do not want to exist, we do not amplify by having an interest in it, or by looking at it. We focus on what we want to grow, and what we do not want to exist, we clear and evaporate.

4. *The Outcomes Correspond to What We Are*

   This Principle shows us the inner and outer outcomes of the energies we hold. Not just the energies in this life but from all lives, along with the timelines where we have organic vessels, clones or genetics, and what these engage in energetic. These other versions affect the quality of all energies we hold, pulling them down or uplifting them.

   The energies are of a higher or a lower standard, depending on the realities they interconnect with. Whatever we hold, runs across all timelines, allowing us to perceive and work with the past, the present and futures of what we are and thus what needs to be changed, cleared and evaporated. Reality and events are the mirrors of what we are.

5. *Inner Knowledge is the Correct Teacher*

   This Principle pulls in the information stored in the code sheets and the energy fields in our template. The quality and quantity of the information depends on what pillar template structure we have and the developmental programs we have been part of. That will energetically determine our inner knowledge and what we attain from within. All content has to be investigated and looked upon with the goal of becoming the best version of what we can be, and what needs to be done to get there. Not all we hold are for the highest good of the many.

6. *The Correct Partnerships Will Come Our Way*

   This Principle works on the dynamics of either the progression or the regression spirals to attract the appropriate partnerships for us, be it in our clearing work, freeing work, or progression work. Partnerships can be any lifeform here or beyond, and we are to work with all of them to either clear out the regressed timelines, we are participating on together, or to build a new reality in the progression work. The appropriate partnership ushers us into a creational project or to start up a community, where our relative reality can expand for the highest good of the many. Naturally, the partnerships can also be of a lesser fortunate character, being the adversaries of our past lives.

   This work must be engaged in as well to complete this cycle and eliminate all unfinished business. Whatever we encounter will be according to the content in our code sheets, the energy system and template. This includes present day tampering.

7. *The Correct Commitment is Key to Any Progress*

   This Principle governs the ambitions of what we commit to in life, energetically and physically. All we have learned from the previous Principles should at this point be a natural part of the energetic influential sphere the heart field produces, fueling our brain field to perceive the realities, we need to see to do our work. Based upon this information, using the Principles, the Rules and the Laws, the decisions can be made as in what to do, where to go and what to choose to go all-in to get the highest progression rate.

8. *The Correct Expression of Energy*

   When the Principles, the Rules and the Laws are an integrated part of our lives, and we live by them in thought, emotion and action, our world begins to change, because we have changed. The relative reality acts in our lives, with its feedback dynamics in whatever we experience, our daily energy work and in our self-observance. If we achieve the highest purity rate and the highest standards, we can reestablish a firm connection to the progressive grids, the holographic teaching system, as well as the ancient beneficial technologies to sustain and uphold our organic vessels.

   At this point it is important to understand that the opposite version of the energy system can also become the end result of our clearing work, if the work with the Principles, the Rules and the Laws have been manipulated into an activation of hidden or inserted inverted genetics. This allows for the infected alter ego to enter into our energy system, take over the heart field and the brain field, and transform the remaining consciousness units into the inverted version.

   The inverted genetics emit a type of cold light, and many have been tricked – in e.g. Kundalini activations – to think they have become enlightened and advanced humans, doing the greater good – notice this saying because that gives it away.

   The inverted consciousness units are the absolute opposite of the progressive consciousness units. Unfortunately, in present-day humans, it is possible to twist the Principles, the Rules, and the Laws into producing a dark-light or crystalline-light energy system (the rainbow energy body). These energy bodies work as bridges into either the 3rd cycle or the reversed 5th cycle run by the inverted races.

Hence, everything we choose to engage in, in our inner work, must be tested against if it has a progressive purpose and if it can apply to be of the highest good of the many. All must be done with a highly attentive self-awareness along with taking responsibility for all our ego flaws, which are the access points into the 3rd cycle energies, and they are being used against us.

We must keep asking, in all our choices: "What if everyone did this, how would the world look like?" and "How would I feel if this (which I am about to do now) was done to me?" The self-observance of the inner argumentation to do this or that, is key to avoid the twisted activation process.

9. *The Correct Expression of Power*

   There is not much to say to this one, other than the activated heart field and brain field unfold the energies congruent with the activated consciousness units, and from that produce the progressive or the opposite energetic strength or power. The combined brain-heart influential sphere along with the double awareness will from this point interact with all surroundings, be it inner or outer, giving us the power to change things.

   The inverted races are driven by an overly strong sense of self-righteousness and self-justification to do this or that, inclusive the lack of empathy and understanding of the consequences of the choices made. These traits in a human indicate a presence of inverted genetics in the template and energy system.

10. *The Correct Dignity*

    Only if there is dignity in our original personality structure, can the progressive energies unfold into this vessel. The dignity drives us to, always, provide the most excellent results for the highest good of the many, for the reality and for all other lifeforms as well.

11. *The Correct Honor*

    Honor was part of the ancient realities. It was developed in the 2nd evolutionary cycle, outside the pillar project, as we began the integration into the *manifested* planes of existence.

12. *The Correct Will*

    Will was part of the ancient realities. It was developed in the 1st evolutionary cycle, outside the pillar project, as we began the integration into the *energetic* planes of existence.

The 12 Rules of Engagement

The Rules of Engagement are not only aimed at how we behave and act around other people. They determine the energetic outcome of how we utilize the lifeforce and its counterpart within the racial grids.

Whenever we interact with any version of lifeforce, be it in a human, in another lifeform or whatever we are encountering, the Rules set the standards for the ways we should behave to keep the lifeforce pure in us, and in others.

The Rules, and how we utilize them to achieve the highest standards, determine the energetic result we attain in all our interactions, along with amplifying – or the opposite - the vibration energies in our heart field.

When we begin the work with progressive energy, new ways of how we behave are bound to come in play. Most of our human habits turn out to be counterproductive in our attempt to rebuild our energy system and they can be, to some degree, directly harmful.

Present-day humans have been turned into mindless consumers of all reality energies, which were meant to uphold our template and energy system, and turned into polluters of the lifeforce in the racial grids, which was meant to uphold our organic vessel and granting us life.

Thus, part of the progression work is to learn how to multiply the resources of reality, sustain life and how to be around other humans and lifeforms by following the Rules. The processes to learn to utilize the Rules support the recreation of the lower order ego structure.

1. Correct Self-Mastery
We acknowledge that all is energy, and that energy is interconnected. We are lifeforms with different states of energy. Energy is utilized in our thoughts, our emotions and in the organic processes of the body. We affect other lifeforms with the energies we hold in the template, in the mind-field, the emotional field and the organic field. And lastly, these energies affect the racial grids, polluting the lifeforce. We must educate ourselves to again understand all energy, forces, and powers.

2. Correct Self-Responsibility
In acknowledging, we affect everything by what we are energetically, be it humans, animals, plants, and the world, we live in, we must take responsibility for our energetic state. We agree to take the energetic challenge of becoming harmless, which means not to directly harm, disrupt or digress whatever we interfere with. Unless, of course, the-whatever attacks us; then we are to defend ourselves appropriately.

In this, we accept that all disruptive belief systems and emotional patterns we might have, from this and previous lives, must be cleared and managed in the accurate ways, along with the distorted cellular construction, we call our body.

3. Correct Self-Expression
Following the understanding of the energetic consequences of how our ways and behavior affect other people, we must learn to express our ego, and its energetic emissions, in productive and amplificative ways for all implicated, leading to the highest good for all.

This means to energetically and genetically perceive, assess and recognize whatever is in front of us, and from this information act accordingly in ways, which will lead to the highest standards and the highest progression rate for all implicated. Here, naturally following the standards, ideas and ideologies of the progressive systems.

4. Correct Self-Containment
Following the first 3 Rules, we understand that we are responsible for not affecting others with the distorted energies and the genetics, we know, we hold in our template and energy system. We are to learn to contain these levels, until we have found ways to clear them.

Thus, we are observant of our behavior and energetic emissions around other lifeforms. We do whatever it takes, to ensure we do not give sustenance to the infected genetics and distorted energies in our energy system or template.

We clear all that we can, all the time until we get it all. We make sure, we do not spread the infected genetics and energies into our surroundings. And we make sure, we do not set in motion the projective dynamics, amplifying the unwarranted levels in us and others. Even if this means going into isolation to attain the appropriate knowledge and gain the mastery of the infected energies, genetics and timelines involved.

Until we learn how to administer our own energies and genetics, it is prudent not to gather in teams or groups. Any group will amplify the unwarranted levels in all team members. Until then, the focus must be on the individual activation and clearing work, and how to prepare for the NGC 2-8 racial segment activation.

After the first phase, from 2026-2029, the community and team work will be reviewed. This implies:

5. Correct Team Awareness.
6. Correct Team Responsibility.
7. Correct Team Work in Projects.
8. Correct Progression Goals for the Project or Community, as a Team.
9. Correct Administration of all Inner Energies and Reality Resources.
10. Correct Management of all Outer Energies and Reality Resources.
11. Correct Deployment in Activity of Manifestation.
12. Correct Intentions of all Expected Outcome.

The 12 Choices of Living

When we begin the higher order progression work, there are many steps to take. One of them is the change of everything that runs our society. The 12 Choices of Living add to the Rules of Engagement and to the Principles to guarantee an equal progression possibility for all. The 12 choices also support our work to attain the highest purity rate, the highest standards, and the highest progression rate.

1) We do not exploit other lifeforms to sustain our existence.
2) We do not exploit other lifeforms to support our progression.
3) We do not exploit other lifeforms to uphold or sustain our vessels.

4) We do not harness energy from others to build our energy system.
5) We do not take anything from others to support our progression.
6) We do not take anything from others to uphold our vessels.

7) We do not use the genetics from others to sustain our template.
8) We do not use the genetics from others to continue our race.
9) We do not use the genetics from others to develop or sustain our organic vessels.

10) We do not interfere with the realities of other lifeforms to sustain our existence.
11) We do not interfere with the realities of other lifeforms to do our progression.
12) We do not interfere with the realities belonging to other lifeforms to develop, uphold or sustain our organic vessels.

The 12 Natural Laws of Energy Utilization

The Natural Laws of Energy determine if the energies, we utilize in our energy system, will lead to progression or regression. When the energies are utilized correctly, we are allowed to reconnect to the reality holographic grids, and more energy will flow into our energy system via the base field and the organic holographic grid structure in the DE2. When utilized wrongly, the grids close down – step by step – until there is nothing left but regression and distortion.

1. The Law of Energetic Influence.
2. The Law of Proximity & Counterbalance.
3. The Law of Creational Projection and Amplification.
4. The Law of Correct Feedback and Reciprocity.
5. The Law of Higher and Lower Order Sciences.
6. The Law of the Cycles.
7. The Law of Cause and Effect.
8. The Law of Correct Function and Correct Use of Energy.
9. The Law of Correct Purpose and Correct Use of Genetics.
10. The Law of Correct Hierarchy and Emplacement.
11. The Law of Correct Use of Technology.
12. The Law of Continuation and Cyclic Renewal.
